

BNI Website Upgrade

Client Presentation Checklist — May 2026

Prepared by Calvin
Magezi
Boys Network
International

[x] DONE

[] PENDING CLIENT

[] PHASE 2

1. WhatsApp & Communication

- [x] **Floating WhatsApp widget**
Green WhatsApp button fixed bottom-right on every page. Opens a pre-filled chat to the company MTN number (+256 791 408 459).
- [x] **"Talk to a Human" button in bot**
The enrollment bot includes a direct WhatsApp handover button with a pre-filled message.
- [x] **Status inquiry inside bot**
Users enter their parent email into the bot to get an instant registration status update, without leaving the chat window.
- [x] **Bot on all pages**
Enrollment assistant appears on every public page. Correctly hidden on /admin and /camp-live.

2. Enrollment Bot — Agentic Features

- [x] **Automated intake via bot**
Bot collects the boy's name, age, area of interest, and parent email before the user reaches the formal form. Data saved to the database immediately.
- [x] **Lead recovery trigger (2-minute)**
If a user spends 2+ minutes on /enroll or /programs without completing, the bot auto-opens: "I noticed you're checking out enrollment. Need help with the payment process?"
- [x] **Return visitor greeting**
Returning visitors see "Welcome back! Registration is still open" instead of a generic greeting, tracked via browser storage.

3. Enrollment Form

- [x] **Multi-step form (4 steps)**
The /enroll form is broken into 4 clear steps: Boy's Details > Preferences & Health > Parent/Guardian > Consent & Submit.
- [x] **Payment preference selection**
Users choose MTN MoMo or Airtel Money during enrollment. Payment codes shown on contact page (MTN: 657538 / Airtel: 4395441).

PENDING
CLIENT

Payment Gateway Registration

Real-time PDF receipts and automated invoicing require a payment processor account.
Recommended: **Pesapal** (Uganda-based, 2.8% fee, supports UGX MoMo + USD card).
Alternatives: Flutterwave, or direct MTN/Airtel API (slower).

Action required: BNI registers a Pesapal business account and shares API credentials.

PHASE 2

Early Bird / Auto-Pricing

Automatic price increase after a set deadline. Requires the payment gateway above to be live first.

PHASE 2

Multi-Currency (UGX + USD)

Dollar account payment option alongside MoMo. Also depends on payment gateway.

4. Camp Countdown & Urgency

[x] Live countdown timer on homepage

Dynamic real-time Days : Hours : Minutes : Seconds counter to Rise & Thrive Bootcamp (23 Aug 2026), visible immediately on landing.

5. Camp Live Hub

[x] Camp Live page

Dedicated page at /camp-live for real-time text/photo/video updates during active camp days. Accessible via the red dot "Camp Live" nav link.

[x] Admin can post live updates

Posts go through the admin panel under Posts / Stories.

6. Newsletter

[x] Newsletter signup

Embedded signup on the Camp Live page. Subscribers stored in the database.

[x] Newsletter admin panel

Admin can compose and send newsletters at /admin/newsletters. Pre-camp, during-camp, and post-camp templates available.

PENDING CLIENT

Branded Sending Email Address

To send newsletters from a branded address (e.g. news@boysnetworkinternational.com), BNI must provide the address or set up an email sending domain.

Action required: Share the preferred sending email address.

7. Feedback & Post-Camp Survey

[x] Automated feedback page

Post-camp survey at /feedback captures star rating, highlights, improvements, parent/son names, and recommendation flag.

[x] Feedback admin panel

All responses viewable at /admin/newsletters/feedback.

PHASE 2

Automated survey trigger

Auto-send survey email 48 hours after camp ends, triggered when admin marks camp complete. Requires branded email above.

8. Social Media

[x] Instagram link — live

<https://instagram.com/boysnetworkint> (opens in new tab).

[x] X / Twitter link — live

<https://twitter.com/BoysNetworkInt> (opens in new tab).

[x] TikTok link — set

Set to @boysnetworkinternational — awaiting client confirmation of exact handle.

PENDING CLIENT	Facebook Page URL BNI confirmed they have a Facebook page but the URL has not been shared. Link currently shows as a placeholder (#). Please share the exact Facebook page URL.
PENDING CLIENT	LinkedIn Page URL Same as Facebook — URL not shared. Showing placeholder. Please share the LinkedIn company page URL.
PENDING CLIENT	TikTok Handle Confirmation Please confirm the exact TikTok handle so the link can be verified.
PHASE 2	Social Wall Auto-Sync Auto-syncing Instagram/X posts to a website Social Wall requires Meta Graph API and X Developer API. Agreed for a later phase.

9. Registration Database & Admin

[x] Enrollment database

All registrations stored securely. Admin can view and filter by status at /admin/enrollments.

[x] Admin panel (Google OAuth)

Secured via Google sign-in. Sections: Dashboard, Enrollments, Gallery, Magazine, Posts, Newsletter, Feedback, Settings, Team.

[x] Contact inbox

Messages from the contact form land in /admin/inbox.

PHASE 2	Admin editable camp dates Camp date (Aug 23) is currently hardcoded. A future update will let admin change it from the settings panel without a code deploy.
---------	--

10. Gallery & Magazine

[x] Gallery

Categorized gallery at /gallery with optimized image loading. Admin manages albums at /admin/gallery.

[x] Magazine section

Independent magazine section at /magazine. Admin publishes issues at /admin/magazine.

PENDING CLIENT	Gallery Content Decision Start fresh with 2026 content, or load last year's photos? Please confirm so the gallery can be populated before launch.
----------------	---

11. Policies & Legal

[x] Privacy Policy in footer

Link to /info#privacy on every page footer.

[x] T&Cs; on enrollment form

Consent and Terms checkbox on enrollment Step 4.

PENDING CLIENT	T&Cs; Document BNI agreed to share their existing Terms & Conditions document for review and upload. Not yet received. Please send the document so legal language can be standardized.
----------------	--

12. Domain & Hosting

PENDING CLIENT

Domain Transfer

Domain is held by "Elijah" pending payment confirmation from BNI. Site cannot go live until DNS control is transferred. Please resolve this on your end.

13. SEO & Technical

[x] Schema markup

Correct Organization schema on homepage with phone, email, and social handles.

[x] Mobile responsive

All pages tested on mobile viewports.

[x] Sitemap & robots.txt

Auto-generated for search engine crawling.

PHASE 2

Technical SEO audit

Deep pass on Core Web Vitals, image compression pipeline, and page speed against Ugandan/East African network conditions.

What BNI Needs to Action Before Go-Live

#	Item	Why It Blocks Go-Live
1	Payment gateway registration (Pesapal recommended)	Automated receipts, multi-currency, early bird pricing all depend on this
2	Facebook page URL	Social link is currently broken (#)
3	LinkedIn page URL	Social link is currently broken (#)
4	TikTok handle confirmation	May be pointing to wrong account
5	Domain transfer from "Elijah"	Site cannot go live without DNS control
6	Branded sending email address	Required for newsletter delivery and feedback survey triggers
7	T&Cs; document	Legal section incomplete
8	Gallery content decision	Fresh 2026 content vs. last year's photos
